

# Magnesium-nitrogen fertilizer — AgroMag® AktiMax

## Description

AgroMag® AktiMax is liquid magnesium-nitrogen fertilizer. Produced from natural magnesium hydroxide. It is concentrated, stabilized water based suspension with high magnesium content.

## Application

AgroMag® AktiMax is used to normalize plant metabolism, increase yield and improve product quality. It is recommended to apply by spraying the leaves of field, vegetable, fruit and berry crops.

	Parameter	Specification	Typical
<b>Properties</b>	Mg, %, min.	20.9	21.5
	N, %, min.	3.8	4
	Ca, %, max.	1.2	1
	Fe, %, max.	0.06	0.03
	Density, kg/m <sup>3</sup>	1400	1500
	Freezing point, °C	0	0
	Product appearance	white liquid suspension	

**Storage** The shelf life of the product is 1 year. For long-term storage, it is necessary to ensure periodic mixing (once every three months). Mix thoroughly before the use. Store above the freezing point.

**Packing** IBC or bulk, polymer canisters (as agreed with the consumer).

**Safety** Refers to low-hazard substances; fire- and explosion-proof, non-toxic.

**Transportation** Transported by all modes of transport in accordance with the rules of transportation of goods that operate in this mode of transport.
